# Restaurant and Mall

Today, managers of public places have to take that ensure fast, versatile and affordable account with the needs of their customers, refurbishment, without sacrificing aesthetics. often requiring frequent changes and renovation.

WD solutions make it easy to adapt furniture to new trends and fashions nor is it easy to remove and replace heavy and complex structures. The alternative to expensive purchases of furniture is given by WD solutions

# Classic Residential

Make every room in the house a unique place, modern or classic, coloured or minimalist. Give a touch of originality and elegance to budget. doors, windows, screens, partitions, wardrobes, shower rooms, glass doors for furniture, glass for tables, mirrors. Upgrade the common areas and thoroughfares of a historic building: lobby, entry doors, stairs, elevators, fire doors, front to desk, windows, and skylights. WD solutions transform spaces with surprisingly little impact

ALTERNATIVE  
SOLUTIONS

# Architectural Finishes, for interior design

Over 500 patterns in more than 20 families, from metals to fabrics, from stone to lacquers, from wood to carbon, from embossed to hi-tech finishes. A self-adhesive product range which minimises the impact of modifications to intricate environments, a new approach to designing surfaces and organising work space. The characteristics of WD Architectural Finishes make them suitable for multiple fields of use, from covering walls and partitions to refurbishing false ceilings and furniture, for a radical but non-invasive redesign of spaces.

# Conference Room setting

# Commercial Building interior design

The ideal solution to give a touch of elegance and originality to the glass surfaces of malls, shops, restaurants, offices, hotels, wellness, spas. Also optimal for corporate identity or to separate public and private spaces. A complete set of translucent films to create the effect of the traditional glass sanding or sandblasting, neutral or coloured, in a simple and elegant way.

Complete  
interior solution partner

# Walls

## Vertical Design

Surface coverings transform walls and partitions into flexible systems for the reconfiguration of environments.

The extreme lightness of WD products and the breadth of range open up countless design possibilities.

The wall is evolving: from a simple partition element to a visual hinge, perfectly integrated in the architectural harmony of the space.

The latter are made of glass, masonry or drywall, WD solutions offer endless possibilities for customization without having to resort to drastic restructuring measures.

So you can implement wall coverings with amazing and realistic effect. From a walnut wood to a mahogany effect from a stone to a gloss. It will be very difficult to distinguish a WD finish from a traditional installation. Surprising advantages in terms of cost and time schedules.

# Ceilings

dreams  
come true

Break the monotony of the usual white and uniform walls, to adapt furnishing into the space that contains it, brighten a room and give it a new look and a new dimension. Coating the ceiling of a room with wood panelling can have high costs due to the difficulty of installation and high scrap.

Today, thanks to the WD Finishes, refurbishment operations are definitely simple, innovative and fast.

Renovating a ceiling with a stucco effect or natural stone is now possible thanks to the WD Finishes, with a significant advantage in terms of budget and logistics, without limitation of form, style and size.

# Convention Centre & Lobbies

You have to go up  
each stair to reach the top

WD art

# Floors

## Horizontal panoramas

Horizontal surfaces represent a huge potential for communication and design. As well as providing a barrier against dirt and water, WD solutions for floors can be digitally printed and cut, for maximum design flexibility.

A system of effective and attractive carpets can help you to make the entrance more pleasant for visitors and employees, reducing the risk of slipping and maintenance costs.

# Textiles

## Everyday creations

The conversion of existing furniture systems into updated scenic and functional elements not only opens up countless interpretative aspects, but also represents an efficient system for optimising the logistical processes of space renovation.

Renovate to retrieve an old mobile hard to place in modern houses or restored to its former glory, enhancing the beauty and elegance which had lost over the past time.

Whatever your needs, 3M AMD solutions offer the ability to restructure a piece of furniture in a quick, minimally invasive way, effective and style according to the different fashions and trends that alternate on the market to generate new interests and a multisensory stimulation.
